PROMT Education
SPECIALIZED SOFTWARE FOR HIGHER EDUCATION INSTITUTIONS
NOWADAYS, BASIC AND APPLIED SCIENCES REQUIRE TRANSCENDING THE LIMITS OF A SINGLE COUNTRY AND BECOMING PART OF THE GLOBAL CONTEXT

In our age of information, global communication and high technology, foreign language skills have become one of the most significant components of a modern, successful professional who wants to become a sought-after specialist and reach career heights.

Active faculty participation in international scientific and educational activities is one of the most important indicators of innovative development at a modern university.
Tasks of educational institutions teaching foreign languages

- Integration into the international scientific and educational community
- Strengthening and expansion of international ties
- Professional development of the faculty
- Development of modern educational technologies
PROMT Education:

Adheres to modern trends in educational and scientific thought

Improves the effectiveness of education and training of competitive specialists

Uses modern information technologies

Used by applicants, undergraduate and graduate students, faculty, staff, and administrators for study, research and international communication
Benefits

1. Access to any information resources in foreign languages
2. Writing documents, reports, presentations, research papers, etc.
3. Effective foreign language study based on cutting-edge technologies
4. Improvement of educators’ professional expertise
5. Improvement of students’ independent working skills
6. Budget optimization – a modern translation software at the price of subscription
Features

1. Translation customized for various general, academic and specialized subjects
2. Detailed information for foreign language learning
3. Offline translation capabilities
4. Text translator, grammar reference and electronic dictionary all in one interface
5. Document translation preserving original structure for the most popular formats (Word, Excel, PDF, PPTX, etc.)
6. Promt agent for instant translation in any application (browsers, messengers, email services, etc.)
For Students

**GRAMMAR**
Dictionary reference, declensions of nouns and adjectives, degrees of comparison of adjectives, conjugation of regular and irregular verbs, and much more

**TRANSLATION**
For each query, a search for matches and terms containing the source word is performed
For Teachers

**EXAMPLES OF USE**
Search for words and expressions in different contexts with professional translation examples

**SET PHRASES**
Collocations with the source word and their translation
The basic version includes 100 Concurrent licenses and 1000 User licenses.

The software includes dictionaries in:

- Physics
- Mathematics
- Linguistics
- Law
- Chemistry
- Ecology
- Biology
- Management
- IT

English, Russian, Italian, French, Spanish, Portuguese, German

Each dictionary contains 5,000–30,000 terms. The total volume of specialized dictionaries in the program is about 600,000 terms.
