

@prompt Office 8.0

Short description

@prompt Office 8.0

Designed specifically for home and small office use

- Translate documents, emails, and ICQ instant messaging
- Translate web pages in Internet Explorer and Mozilla Firefox,
- Easy integration with Microsoft Word, Outlook, and Adobe Acrobat.
- Electronic Dictionary included as stand-alone application

@prompt Office 8.0 is appropriate for home/small office translation use. It can be used to translate documents, web pages and ICQ messages. Software can be integrated with Microsoft Outlook, Microsoft Word and Adobe Acrobat.

The new Microsoft Office 2007-style interface lets users enter new words into user dictionaries with a single click. @prompt Office 8.0 supports Mozilla Firefox and OpenOffice to deliver optimum ease of use.

Benefits

- **Easy translation and editing**
Text is translated quickly and accurately with just a single click. For convenient editing source and target texts are synchronized at an individual word level and translation variants are displayed for words with multiple meanings.
- **Instant lookup of words and phrases**
Electronic dictionary enables quick translation of a single word or phrase
- **Easy integration with Microsoft Word/Outlook and Adobe Acrobat**
Translated text appears in a separate window and can be easily copied and pasted into the target application
- **Smooth translation of web pages while browsing**
Foreign-language websites appear seamlessly in your native language as you browse using Microsoft Internet Explorer[®] or Mozilla Firefox.

Fast and accurate translation:

The Microsoft Office 2007-style interface makes it easy and intuitive to work with @prompt Office 8.0

Translation software provides fast, high quality document translation with a single mouse-click and preserves the original layout of the document.

PROMT Window

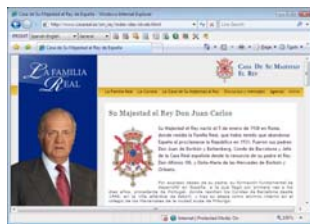

Continually updated linguistic algorithms with hundreds of thousands of language rules, together with the multidimensional dictionary architecture, ensure high-quality translation.

Integration Capabilities

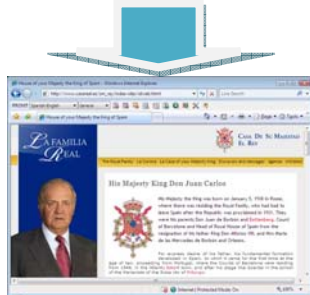

Integration with Microsoft Word and Outlook helps you get the gist of a document or e-mail.

Easy integration with Word and Outlook

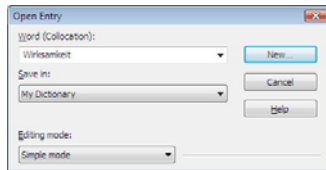

@prompt Office 8.0 provides a set of special tools that make it easy to extract information from foreign-language web sites without the need to understand the language. Customization functions include:

- Manage the translation process through the toolbar or a shortcut menu right in the browser.
- Attach specialized dictionaries to improve the quality of web-page translation on those topics.
- Save translation settings for selected web pages so they're automatically translated next time you visit them.

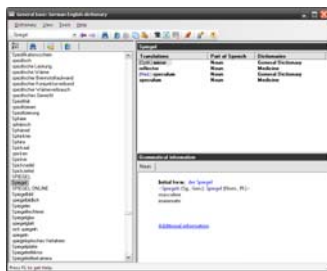

Adding a word into user dictionary, type "advanced"

Customization Options

Creation of user dictionaries will help you to optimize the program for use with your subject specific terminology. The simple mode of adding new words uses automatic selection, which makes the whole process quick and easy.

Adding a word into user dictionary, type "beginner")

@prompt Office 8.0 includes a standalone electronic dictionary that supports all available @prompt translation directions. It translates any word or phrase and also offers comments on grammar and etymology.
